Obsequies of Mr. Penbody.

LONDON, November 12. The obsequies of George Peabody took place this afternoon. The procession was formed at the mansion of Sir Curtis Lampson. It consisted hearse and five mourning coaches. Following the procession were carriages of the Queen the Prince of Wales, Sir Curtis Lampson, the Lord Mayor and Aldermen of London, the High Sherid's of London and of the Counties of Middle sex and Surrey, the Duchess of Somerset, the Marquis of Townshend, Lady Franklin, Miss Burdett Coutts and many others

The funeral cortege passed slowly through the streets, which were lined with crowds of silent speciators, to Westminster Abbey. The venerable structure had been completely filled with people, who had been admitted by tickets, and were mourning. The choir was hung with black, and the sombre aspect of the interior was only relieved by the robes of the Lord Mayor and Sheriff. Standing near the sacrarium, as the body was brought in, were Mr. Gladstone, Lord Binney, a dissenting minister; Dr. Day and John

Messrs, Shields & Glaze, of Columbia. It is well made, casy to work, not hable to get out of order, and operates well.

"Sureka! smut machine. J. D. Dreher, Columbia, S. C. Your committee did not see this machine in operation, but it seems to be well built, and worthy of the attentions of planters.

Patent saw sharpener, exhibited by Messrs. Shields & Glaze, Columbia, S. C. An excellent machine, and deserving of the attention of all who are using circular saws or other saw mills. Sowing machine, exhibited by J. E. Adger & Co., Charleston, S. C.; also, four of the Willcox & Gibbs and Weel Sowing Machines. All these machines are most useful; the one exhibited by Messrs. Adger & Co. cheap and within the reach of all, and the Willcox & Gibbs machine is too well known to require our endorsement.

Hinckley's knitting machine, exhibited by J. W. Thomas, Abbeville, S. C., is a most valuable family labor-saving machine, knitting stockings, undershirts, Jarwers, and many other articles, and is

labor-saving machine, kintting stockings, undersbirts, drawers, and many other articles, and is
sold for \$30.

Submerged pump, by Messre, Jennings, Thomlinson & Co., Charleston, S. C.; atso, one by Mr.
Richard Tozer, of Columbia, also, one lift and
force "Monitor House Pump," by Mr. A. Y. Lee,
of Columbia, who is agent for W. S. Carr & Co., of
New York. These pumps have each their points
of value, and are all worthy of the attention of
the planters, who could save much labor and time
by a good pump for the clumsy arrangements of
the present wells.

Mr. C. T. Mason, of Sumter, S. C., exhibits an
electric fan for kerosene lamps, which is an ingenious application of electricity to increase comnustion. He also exhibits an electric alarm,
which is an equally ingenious application of electricity, for the detection of burglars.

Muster C. T. Mason, of Sumter, exhibits a miniature steam engine, which is very creditable to
him, and your committee advise, that though
there is no premium offered for such articles,
some award should be made to Master Mason, and in future a premium be offered for
the best piece of mechanism constructed entirely
by a boy under eighteen years of age. (A silver
medal was presented to Master Mason.)

Portable steam engine, manufactured and exhibited by Mr. Richard Tozer, of Columbia. To
this machine, which is well built and creditable to
the builder, your committee award the premium
of a gold michal.

s over, and well over. In its material results, this Fair is important In all the departments of productive industry, to produce results-although the results thus far are in themselves highly creditable to all partie

concerned. An enumeration of the articles presented, after the full lists already published in THE NEWS would be unnecessary; but a few figures, as ex maples, may be given to indicate the scale of the affair. Of horses and mules there were 69 cm ered; of cattle 42 head; of swine, 16; of goats, 8; heep, 7, and of poultry about 100.

Other departments were represented in some compare the Fair with others in other places. There were some things in themselves signifi-ant of progress. A new bee-gum, or palace, was entered by Dr. Turnipseed, of Richland County This has been registered in Washington for patent. The novelty consist in an arrangement o prevent worms. A South Carolina made clock . Embleton, of Columbia, exhibited specimen f his own engraving. C. T. Mason, of Sumter, ntered an electric fan for kerosene lamps. Mrs. M. A. Holmes, of Columbia, entered a specimen model of movable fence. Mrs. E. Finley, of Rich land, some Irish potato starch. There was on ex cess discovered by Mr. Richard, of Columbia. R. C. Shiver, of this city, exhibited specimens of the ramie fabric, both unspun and in cloth. Of this ramic, Colonel Joel Foster, of Spartanburg, says he can make more money with it at three cents a pound, than he can with cotton at twenty; and that the price of ramic is ten cents. That is to say, he can make more than three times as much by raising ramie as he can by raising cotton. Ramie is a good deal like flax, in the mode of pre-paring it. M. R. Clarke (already once mentioned) had at the Fair a specimen of manufactured honey, which he claims he can manufacture at ten cents a pound, while real bee-made honey

sells at near twenty. These are but specimens; but they indicate a

day of endeavor and of new pursuits.

J. Wash Watts, of Laurent, took nineteen prizes—the largest number taken by one man— C. J. Stolbrand, of the State Penitentiary, tool a prize for the best brooms.

Mr. W. S. Henerey. The least successful feature of the Fair was the extemporized equestrian exercises, which con-sumed several hours of the afternoon of the last lay. These were protracted by preliminary evoutions that well-nigh exhausted the patience of very indulgent and large concourse of people. The iding was good in general; but the fears under taken were evidently beyond the skill of the Borses entered. They knocked down the bars ten times as often as they cleared them. After all it was not very easy to see what it was all about-what agricultural end was subserved by these ex

The crowd became larger from first to last, each day improving on the preceding. The figures were, as well as one could determine from general calculation, about these: First day, 500; Lecond day, 3500, and third day, 5000. The Board of Trustees of the State University have requested Professor Rivers to continue in the chair of Aucient Languages "for some months" longer. A San Francisco paper describes the music in a Chinese theatre of that city as follows: "Imagine yourself in a boiler manufactory when four hundred men are putting in rivets, a mammoth tin-shop next door on one side, and a forty-stamp quartz mill on the other, with a drunken chartvari party with six hundred instruments in front, and four thousand enraged cats on the roof, and a faint idea will be conveyed of the performance of a arms-class Chinese band of music."

A meeting of the friends of this road was neld in Columbia on Tuesday, and was addresse by W. J. Greene, John A. Carnes, Colonel Wris on, A. U. W. Taylor and Captain Stuckey. The

following resolutions were adopted:

Wherears, in the opinion of this convention it is highly essential to the interest of Charlotte and Georgetown, and the intervening counties, to build the Georgetown Railroad over the route proposed via Bishopville to Charlotte,

Resolved, That a committee of three be appointed to memorialize the Legislature of South Carolina for a charter for the extension of said road from Bishopville to the North Carolina for a charter for the extension of said road from Bishopville to the North Carolina for a charter for a road from Charlotte to the South Carolina for a charter for a road from Charlotte to the South Carolina line, to connect with the Georgetown Road.

Resolved, That immediately after the charter shall have been obtained, and books of subscription opened, a convention in the interest of this road shall be called together by its agent, Captain Greene, for the purpose of organization.

Resolved, That Lancaster be cordially invited to join us in our enterprise, and that a committee of three be appointed to bear this invitation to the people of that County, and solicit their co-operation.

S. THOMAS, City Treasurer. 28-IMPAIRED DIGESTION. - ALL he organs of the body are, so to speak, the pen sioners of the stomach. In that living laborator is prepared the nourishment required to susta with the digestive apparatus, that nourishment i quality and quantity of this element of life, and upon the manner in which it is distributed and apportioned, physical health mainly depends, and as the mind inevitably sympathizes with the body, the vigor of the one is absolutely necessary to the

well-heing of the other. It is because HOSTETTER'S STOMACH BIT reas accomplishes this double object that it en joys a reputation as a preventive and curative aration. But its direct beneficial operation up the weak or disordered stomach is not its sole re mmendation. It is the most comprehensive of all known remedies. It tones, strengthens and egulates the discharging as well as the assimiting healthful evaporation through the rousing the inert liver from its torpor, and induc ing harmonious and natural action in the whol nimal machinery. This benign result is not pro duced by any of the reactionary drugs which ar ed by Paracelsus; but by n:lid, safe and agreeable vegetable agents intermixed with a pure and mel low stimulant which diffuses their influence through the system and renders their sanitary properties active and effective. nov15 60&c
